

Cybersecurity

Protecting and Utilizing Government Data

Wednesday, March 27, 2019

3 CPE's

RSM, Charlestown Boston, MA

12:50 to 3:50pm

Cost: \$FREE Members \$25 Non-Members

Register **NOW!** At www.agaboston.org

Program Level: Overview

Prerequisite: None

Advance Preparation: None required

Field of Study: Computer Software & Applications (CS)

Live Speaker: Stephan Campbell, Security Consultant, BSc, MALD, CISSP

Webinar: Tony Hubbard, Partner, KPMG Government Cybersecurity

Government agencies have never had access to so much data, or the modern capabilities to access and use data. Increased value of data can be obtained by turning it into manageable and usable information, while leveraging modern technologies to protect data from cyber security breaches.

This session will explore techniques to secure data while also implementing data automation techniques to help support government programs and operations in a more effective and efficient manner.
